

Notice of Special Education Records Destruction

In accordance with Nebraska Rule 51, Shickley Public Schools periodically destroys special education records that are no longer needed to provide educational services and have met required retention timelines.

The district will provide notice of the specific records eligible for destruction and the scheduled destruction date.

Parents/guardians or eligible former students who would like to obtain a copy of their special education records prior to destruction should contact Shickley Public Schools.

Records that are not requested by the designated deadline will be securely destroyed in accordance with applicable state and federal requirements.
